EDUCATION

The University of Texas at Dallas

Bachelor of Science in Computer Science

Richardson, TX

Aug 2022 – May 2026

- **Relevant Coursework:** Computer Architecture, Discrete Math, UNIX, Advanced Algorithm Design and Analysis, Automata Theory, Machine Learning, Artificial Intelligence
- **Leadership:** Alpha Kappa Psi Vice President of Service, working on philanthropic efforts to benefit the community.

TECHNICAL SKILLS

Software skills: Java, C/C++, GO, SQL, Python, Excel, Docker, MongoDB, Express, React, Node.JS, Django, PostgreSQL, Swift, Linux, Shell Scripting, Bash, Unix, Kubernetes, GCP

AI/ML tools: JupyterLab, SciPy, Pandas, Matplotlib, SciKit Learn, Keras, Tensorflow, Pytorch

Other Skills: Agile Methodologies, Scrum, JIRA, Professional Communicator, Visual Studio, Excel

Interests: Music, Movies, Hiking, Fashion, Comics, Anime, Gaming, Gym

EXPERIENCE

The Way and True Ventures

Software Developer and VC Fellow

Summer 2025

Remote

- Developed "Archive Assistant" RAG model using LangChain, Pinecone, and Python to provide 15,000+ users authentic meditation guidance through direct archival quotes
- Enhanced user engagement and retention by creating intelligent search capabilities that maintain the authentic meditation experience while providing personalized guidance
- Assessed True Ventures portfolio companies to identify strategic AI implementation opportunities across their investment portfolio

GGWP (BuildSpace S5 - A16Z-backed)

Founder

May 2024 – Aug 2024

San Francisco, California

- Part of a select cohort to attend a conference to transform an idea into reality
- Designed and developed a social media app aimed at fostering engagement and competition among solo gamers
- App developed using React Native, Supabase, and Django, successfully beta-tested with 150+ users

Portages Health

Product Developer

June 2024 – Aug 2024

Remote

- Developed an innovative solution for tracking and enhancing mental health, engaging with 40 customers to assess needs and design new product features - Under an N.D.A. for significant work details
- Leveraged React Native for the frontend and Firebase for the backend to develop and implement product features

HelloAppt

Full Stack Developer

June 2023 – Aug 2023

Allen, TX

- Developed a sophisticated scheduling system tailored for streamlined appointment management, accommodating over 30 service providers and engineered to scale seamlessly to support hundreds of customers
- Gained expertise in full-stack web development, mastering the Django framework and the MERN technology stack

PROJECTS

Take10 | React, Hume.AI, GPT, Python

Nov 2023

- Take10 is a full stack app that tracks the stress of a student while they are working, then lets them know when to take a break, dynamically assess and prioritize tasks based on difficulty and stress level.
- Hosted by HackUNT, won **2nd place overall**, competed against 100 participants

TrendSent | React, NodeJS, GPT API, MindsDB

Nov 2023

- TrendSent employs machine learning to project Discounted Cash Flow, integrating SEC filing data and sentiment analysis for a comprehensive financial analysis of companies and their competitors.
- Hosted by UTD, won **3rd place in the Goldman Sachs Challenge**, competed against 1200 participants

Midas | React, NodeJS, GPT API, MindsDB, Hume.AI

Oct 2023

- MIDAS leveraged facial expression analysis with computer vision and machine learning for more intelligent cryptocurrency trading decisions.
- Hosted by UCBerkeley, won **3rd place in the Infiniti challenge**, competed against over 1600 participants

DrugRadar | React, NodeJS, ChatGPT API, HTML

April 2023

- DrugRadar uses NLP and text recognition to analyze both OTC and prescription drugs while also checking for interactions and side effects, empowering users to make informed decisions in healthcare.
- Hosted by UTD, won **3rd place in the Axxess Challenge**, competed against over 300 participants
